Cara buat ZIP & Upload

1. Buat folder **RipaiWebsite**
2. Masukkan semua file di atas ke folder itu
3. Di HP/PC → klik kanan → **Compress / Zip** → hasilnya `RipaiWebsite.zip`
4. Upload ZIP ke **Netlify** atau **GitHub Pages**
5. Website langsung online, responsive, ada dark mode, tombol sosial media, dan multi-page

Kalau mau, aku bisa buat **versi GitHub Pages langsung online tanpa ZIP**, cuma copy-paste satu file → langsung jalan.

Mau aku buat versi itu juga?
